INTEGRATED PEST MANAGEMENT
WORKSHOP

This hands-on IPM workshop is designed to help vegetable farmers learn about IMP and to see IPM as a sustainable approach to pest control that provides a variety of tactics to prevent, avoid or suppress weeds, insects and crop diseases while protecting human health, the environment, and the profitability of agriculture.

Get ready for the growing season! This workshop will emphasize sustainable and organic approaches to pest control that rely on preventive practices such as biological control, behavioral control, physical, and cultural controls

February 16, 2013

09:15 AM – 2:30 PM

(Lunch included)

St. Andrew's United Methodist Church
1004 Rock Rd.
Desoto, MO 63020

Due to the nature of the hands-on activities, registration will be limited to the first 15 people that register. To register, you need to contact Joyce Rainwater at 314-800-4076 or RainwaterJ@lincolnu.edu to reserve your spot.
